Narrative Collectibles Platform

Manage collectible identities and narratives, review editorial evidence and study simulated commerce workflows with controlled inventory and ledger rules.

Product overview

Review collectible identities, edition limits, fictional narratives and editorial evidence in a local reference studio. The R5 source also supports simulated order and fulfilment states, controlled stock reservations, returns, refunds and ledger invariants. Physical facts remain distinct from fiction, and production operation and real payments require later independent acceptance.

Potential acquirers

- Collectible registry software teams
- Narrative product studios
- Independent collection operators

Documented functions

- Register collectible identities and edition limits
- Keep fictional narrative and physical facts distinct
- Bind editorial decisions to narrative revisions
- Review canon, multilingual consistency and text reuse
- Retain deterministic histories and recovery packages
- Study simulated order, fulfilment, return and refund lifecycles
- Review idempotency, duplicate-sale prevention and financial ledger invariants

Available output types

Collectible and edition records / Fictional world and narrative histories / Review and recovery packages / Simulated commerce lifecycle and ledger-assurance reports

Enterprise & commerce software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 10,500	**Prototype**

Current scope and conditions

The 0.6.0 / R5 local reference source passed its 130-test repository suite. Independent operator, security, privacy, rights and production acceptance remain separate final gates; real payments are not activated.

Available for acquisition discussion

Identified edition: 0.6.0 / R5

• Text checks are not semantic entailment, plagiarism detection or translation-quality certification. Physical stock, third-party fiction, production commerce, real payments and hosted accounts are separately scoped.

• Commerce functions use simulated transaction states. Real payments and production commerce are not activated.

• Financial references retain their disclosed registry, assurance and R4 cost basis; agree the R5 delivery scope and any separate consideration expressly.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-108 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	10,500	11,816
Negotiation reference - low	8,000	9,002
Negotiation reference - high	13,500	15,192
Recreation cost estimate	35,000	39,386
Marketability cost scenario	26,775	30,130
Monetisation cost scenario	25,988	29,244
Risk-adjusted strategic reference	13,276	14,939
Weighted economic reference	23,949	26,950

Milestone-conditioned reference

Not established. No accepted next-maturity evidence or future sale/income value is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 30,000 retained scope component plus EUR 5,000 for the explicitly scoped implementation work budget, giving EUR 35,000. The scoped budget assumes 48 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has its own disclosed work-package estimate; overlapping work must not be added twice. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.
