GoldenNet Signal Intelligence Platform

Review signal patterns and maintenance-model results before selecting a model for your intended use.

Product overview

A signal-intelligence product for condition review and maintenance research.

Potential acquirers

- Industrial AI vendors
- Maintenance software developers
- Equipment research teams

Documented functions

- Review time-series conditions
- Identify modelled anomalies
- Estimate remaining service life
- Monitor governed inference
- Retain release evidence

Available output types

Condition scores / Maintenance study reports / Model qualification records

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 425,000 · indicative USD 476,595

Identified edition: 0.10.0

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	425,000	476,595
Negotiation reference - low	340,000	381,276
Negotiation reference - high	535,000	599,949
Recreation cost estimate	1,800,000	2,018,520
Marketability cost scenario	2,173,500	2,437,363
Monetisation cost scenario	2,673,000	2,997,502
Risk-adjusted strategic reference	2,192,923	2,459,144
Weighted economic reference	2,186,823	2,452,303

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source describes bundled SHA-bound preprocessing/weights, synthetic/unverified evidence rejection and local offline validate_repo path; abandoned PR #4 not a release.

Remaining limits

Official NASA C-MAPSS and IMS predictive metrics NOT ESTABLISHED without independently recorded source-run evidence; no field predictive-maintenance or safety certification.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — A signal-intelligence product for condition review and maintenance research. The offered edition and material boundaries govern review.

Evidence and validation: E4 — E3 plus repository-retained independent/external validation evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-054 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
