Current scope and conditions

Present first-party piano practice, performance and local production software, its proprietary transcription work, retained research and validation, and documentation. User music, external scores, recordings, datasets, plugins and future model qualification are excluded.

• Piano learning and production software. The delivery edition, supported devices and acceptance conditions are agreed before transfer.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

• An explicit delivery manifest and handover scope remain to be agreed.

• Validate the draft training checkpoint/resume implementation and required v16 promotion gates before product acceptance.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

README documents frozen v13 internal 192-song/128-song synthetic holdout and browser integration; PR #32 records degenerate early recovery checkpoint selection and Wilson-bound repair pending exact-head acceptance.

Remaining limits

No independent real-recording SOTA, live hardware/vocal performance, pedagogical superiority or acceptance of v16 recovery. PR #32 unmerged and not promoted.

Development position

v16 evidence-aware recovery model selection
