TraceLine — Evidence-Governed Investigation Framework

Organise your investigation, review case evidence and keep decisions linked to their authorisation.

Product overview

An investigation workflow product for accountable case decisions and controlled evidence handling.

Potential acquirers

- Investigation software vendors
- Professional investigation firms
- Evidence-management teams

Documented functions

- Manage case-intake gates
- Record human authorisations
- Retain evidence custody
- Prepare controlled disclosure
- Recover interrupted evidence operations

Available output types

Case dossiers / Disclosure packages / Custody histories

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 295,000 · indicative USD 330,813

Identified edition: 0.6.0

Developed software · Conditional handover

Current scope and conditions

Existing first-party investigation decision-support software plus the implemented v0.6 local evidence custody, controlled disclosure and recoverable-operation increment, its documentation and tests. Legal authority, third-party content rights, independent evidence authentication, certified security and future deployment are excluded.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• An explicit delivery manifest and handover scope remain to be agreed.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	295,000	330,813
Negotiation reference - low	237,000	265,772
Negotiation reference - high	369,000	413,797
Recreation cost estimate	1,195,000	1,340,073
Marketability cost scenario	1,442,963	1,618,139
Monetisation cost scenario	1,774,575	1,990,008
Risk-adjusted strategic reference	1,455,857	1,632,598
Weighted economic reference	1,451,808	1,628,057

Cost basis

Some dated work-package assumptions are disclosed, but they do not reconstruct the complete retained recreation anchor. A complete scope-specific budget is required.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

README describes case governance, append-only audit, recoverable transaction journals, integrity hashing and disclosure/disposition controls. No new runtime tests were rerun in this portfolio review.

Remaining limits

A source hash is neither authorship nor truth; 2026-09-22 sector-code baseline expired, current legal reference and lawful evidence intake not externally verified. No admissibility or investigation-outcome proof.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — An investigation workflow product for accountable case decisions and controlled evidence handling. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-065 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
