Current scope and conditions

Developed research or product software within the identified edition and material boundaries. Intended-use and recipient acceptance remain separate.

Available for acquisition discussion

Identified edition: 3.30.0 scoped qualification / 3.31.0 development

• Software checks do not establish artistic merit, originality, commercial success or rights clearance.

• Recorded software qualification covers its identified disposable test scope; the current compatibility candidate is not a production-qualified service.

• Live integrations, tenant migration, keys, hosting security and recipient acceptance require separate qualification.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained expressly priced scope and successive non-overlapping implementation budgets reconcile below. Equivalent effort and historical anchors remain seller assumptions; actual expenditure, independent quotations and market value are not established. The previously priced songwriting, workspace, recovery and role-isolation foundations are reused once. Only the added migration-inventory/rehearsal, staging, ingress and compatibility work is included. Actual hosting, paid services, customer-data migration, live model/payment/email integrations and independent production acceptance are excluded.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
